

Dr. Elizabeth Wishnick

Senior Research Scientist, Center for Naval Analyses

Elizabeth Wishnick is a Senior Research Scientist in the China and Indo-Pacific Security Affairs Division at the Center for Naval Analyses and a Senior Research Scholar at the Weatherhead East Asian Institute at Columbia University. She was a tenured professor of Political Science at Montclair State University from 2005-2024. Dr. Wishnick has dual regional expertise on China and Russia and is an expert on Chinese foreign policy, Sino-Russian relations, Northeast Asian and Central Asian security, and Arctic geopolitics. Her book project, *China's Risk: Energy, Water, Food and Regional Security* (forthcoming Columbia University Press) addresses the security consequences of energy, water and food risks in China for its Eurasian neighbors, a topic she explores in a related policy blog, www.chinasresourcerisks.com, now on Substack as China's Resource Risks. Dr. Wishnick is a two-time Fulbright scholar (Global Award for China, Russia, and Kazakhstan 2018-22; and Fulbright Research and Teaching Award for Hong Kong 2002-03). She received a PhD in Political Science from Columbia University, an MA in Russian and East European Studies from Yale University, and a BA from Barnard College. She speaks Mandarin, Russian, and French.

Dr. Wishnick has not previously testified before the Commission.
